QUESTION #1 - PRELIMINARY PURPOSE AND NEED

The purpose and need statement describes the issues to be addressed and serves as a guide for the development and evaluation of potential improvements. The project team has identified a preliminary purpose and need:

- Address congestion during peak periods, including weekends
Minimize the impact of incidents
Reduce crash rates in the corridor

What do you think are the biggest transportation problems in the corridor? Be as specific as you can regarding the problem, where it occurs, and if it is most prevalent during specific times.

Four horizontal lines for text input.

### QUESTION #2 – TSMO STRATEGIES

---

The project team has reviewed a wide range of Transportation System Management and Operations (TSMO) strategies that may be applicable to this corridor, including:

Dynamic Shoulder Lanes/Hard Shoulder Running

- Variable Speed Limits
- Ramp Metering
- Queue Warning
- Work Zone Management
- Behind the Scenes Strategies, including computer aided dispatch and center-to-center interface

***What do you like/dislike about the strategies? Are there other strategies that you think we should be considering?***

---

---

---

---

### QUESTION #3 – OUTREACH PROGRAM

---

The project team is reaching out to stakeholders in multiple ways to get input into the study:

- Public Meetings
- Community Advisory Committee
- Resource Agency Committee
- Transportation Organizations

***What groups or organizations should we be reaching out to? How can we spread the word effectively?***

---

---

---

---
